

Dry-Stack

MORTARLESS

MECHANICALLY FASTENED **CLAY** BRICK VENEER

BRIKclad

Change the way you think about brick

BRiKclad is a natural clay brick veneer that installs just like siding! Using our patented stainless-steel fastening system, BRiKclad bricks are simply screwed to the wall. It really is that simple!

Durable and colorfast, our clay brick system includes a built in cavity to help drain and ventilate the wall behind the clay cladding. BRiKclad is designed to not only stand the test of time, but also stand up to the rigors of harsh climates.

Whether you are a seasoned installer or a D.I.Y. enthusiast, our simple, quick and easy installation method makes BRiKclad an ideal finishing option for virtually any project.

System Components

ITEMS REQUIRED FOR INSTALLATION

Our Dry-Stack mortarless option is a single 1-step installation. All you need is a brick, fastening clip, screw, butyl string, starter angle and rainscreen. With BRiKclad, you can begin enjoying your new clay brick wall in a matter of minutes!
